Thoth tarot cards amazon

78 card deck in standard cardboard box with top flap opening. Box text is printed in red and black ink. Publication information on the top of the box reads "Distributed by Llewellyn Publications, P.O. Box 43383, St. Paul, MN 55164. Cards printed in Belgium. Booklet and box printed in USA." Significant green tint to the card borders, and general "greenish" cast to the images. Cards measure 3.75" x 5.5" No date on box, published in 1970s or 90s. Don't waste your money on this one. The cards are tiny - smaller than playing cards - which makes it hard to see the beautiful images. The card stock is flimsy. The description indicated that you would get the two extra Magus cards - but that is not true. You get the same two extra cards from any modern publication of the Thoth deck.The book does include 8 spreads, but I have skimmed through some of the card meanings and I don't even think this will be the book I will use to understand the Thoth deck.There is nothing different about the images in the deck either (as best as I can tell from the tiny images) Aleister Crowley (/Éˈkrɔʊsi/; born Edward Alexander Crowley; 12 October 1875 â€” 1 December 1947) was an English occultist, ceremonial magician, poet, painter, novelist, and mountaineer. He founded the religion and philosophy of Thelema, identifying himself as the prophet entrusted with guiding humanity into the Aton of Horus in the early 20th century.Bio from Wikipedia, the free encyclopedia.
